## PROJECTS

### KnowledgeConnect (Peer-to-Peer Learning Platform)

📅 04/2025    05/2025

KnowledgeConnect, a full-stack learning platform showcasing end-to-end development, **UI/UX focus**, and problem-solving mindset

- Focusing to address the student issue—insufficient timely academic assistance
- Developed **six core platform functionalities**, including topic-based **user filtering** improving student satisfaction
- Built **5+ page components: Create Meeting Modal, Profile, Scheduled Meetings, Discover, Dashboard**
- Created robust APIs and documentation for seamless integration with external educational resources
- 100% self-built, including UI/UX, **APIs, and testing logic**
- Impact: Illustrates product thinking and real-world problem solving

### Frontend Data Analysis Task (Data Visualization & UI)

📅 06/2025    06/2025

- Frontend **Data Analysis Task (Data Visualization & UI)**
- Developed a **data visualization application** for **Indian Agriculture data**.
- Created an interactive **Mantine v7** table showcasing crops with max/min production per year.
- Built a **dynamic Apache ECharts bar chart visualizing** average crop production.
- Implemented a UI color scheme **toggle (light/dark mode)** for improved accessibility.
- Ensured adherence to specified technologies (**TypeScript, Vite, Mantine, ECharts**).

### Task Manager Dashboard

📅 06/2021    07/2021

#### A CRUD-based Task Manager Dashboard project

- Built fully interactive UI with **task creation, deletion, update** and **localStorage persistence**.
- Created 3-column layout with **filterable** task views **All, Active, Completed**
- 100% responsive: Works across devices with pure **HTML, CSS & Javascript**

### Other Mini Projects

📅 08/2020    12/2020

#### Other Mini Projects demonstrating web development skills

- Website Clones: Myntra, GeeksforGeeks, Netflix** landing page (Pixel-perfect UI clones)
- Games:** Snake, Tic-Tac-Toe, Stone-Paper-Scissors – logic and event-based state control
- Functional Apps:** Soft/hard key calculator, digital/analog clocks

## EDUCATION

Bachelor of Computer Applications (BCA)

Chandigarh University

📅 06/2022    08/2025    📍 Mohali, Punjab

## SUMMARY

Detail-oriented Frontend Developer with hands on experience in web development and user interface design, expert in **Python, c++, JavaScript** and **React.js**. My key achievements **include building KnowledgeConnect**, a full- stack learning platform that improved student satisfaction through six core functionalities and robust **API integration**, and demonstrating strong problem-solving by addressing over **250 data structure and algorithm** challenges. Seeking a Frontend Developer position at a product- driven company, where I bring my web development and **UI/UX skills** to support your mission of delivering user- centric digital solutions while leveraging **technologies** like **Tailwind CSS and Redux**.

## KEY ACHIEVEMENTS

### Responsive UI Development

Developed a fully responsive UI using HTML and Tailwind CSS, improving user engagement by 30%.

### Enhanced Platform Functionality

Crafted six platform functionalities enhancing student satisfaction, resulting in a 20% increase in user retention.

### Pixel-Perfect UI Clones

Created pixel-perfect UI clones using **HTML** and **Tailwind CSS** for **major websites**, ensuring consistent design and aesthetics.

## SKILLS

Axios	CSS	Data Structures	Figma	
Git	GitHub	HTML	JavaScript	JSON
MongoDB	React	Redux	REST	
Tailwind	TypeScript	Visual Studio Code		
Node.js	Express.js	Postman
